

PEIYU CHEN

Chicago, IL (+1) 312-287-1878 peiyuch@uchicago.edu

EDUCATION

University of Chicago

Chicago, IL

M.S. in Computational Analysis and Public Policy

Expected June 2026

- Highlight Coursework: Database, Machine Learning, Advanced Statistics for Data Analysis, Computer Science with Applications, Mathematics for Computer Science and Data Analysis

Beijing Normal University

Beijing, China

B.Econ. in International Economics and Trade

June 2024

Minor: B.A. in Spanish

Thesis: The impact of the Belt and Road Initiative on industrial carbon emissions reduction in the host country

Advisor: Lan-cui Liu

- Highlight Coursework: Advanced Mathematics, Probability & Statistics, Application of Information Technology, Intermediate Microeconomics, Intermediate Macroeconomics, Econometrics

RESEARCH INTEREST

Human-AI Interaction, Decision Making, Computational Social Science

ONGOING RESEARCH

Can LLMs Be One of Us? Interactional Competence, Indexicality, and Register Construction in Multi-Party Dialogue

RESEARCH EXPERIENCE

Booth School of Business, The University of Chicago

Chicago, IL

Research Assistant, the Perception and Judgment Lab / Mindworks

July 2025 - Present

- Developing a FastAPI backend for an interactive exhibit, integrating database design and real-time user response collection to visualize individualized social judgments

Business School, Beijing Normal University

Beijing, China

Dissertation

November 2023 - May 2024

- Researched the initiative's impact on industrial carbon emissions and attempts to interpret its mechanisms through the synthetic control method and panel data from 89 countries over 15 years

Project Facilitator, National Key Undergraduate Research Program

November 2022 - August 2023

- Designed 5 independent experiments to explore how varying levels of detail in carbon footprint information affect consumer food purchasing decisions over 300 participants, comparing these impacts to those of social advocacy

Research Collaborator/Lab Member, Laboratory of Behavior and Decision

October 2021 - Present

- Advisor: Haoran He
- Providing technical support for experimental platform setup and program development
- Crawling web pages and applications to collect publicly available doctors' information
- Daily participation in article presentations and in review discussions and report writing

China Philanthropy Research Institute

Beijing, China

Research Assistant, Center for Philanthropic Studies

September 2022 - February 2024

- Established a database covering 10+ major public welfare organizations and 10,000+ projects for the "China Example" cooperation project for comprehensively researching emerging Internet public welfare trends in China
- Contributing Author of *40th Anniversary of the Red Cross Society of China Shenzhen Branch*

- Formulated data analysis of Top-100 China Philanthropic Givers 2022 & 2023 by collecting 10,000+ data entries

INVITED TALKS & PRESENTATIONS

Nudge: social advocacy, carbon label, and low-carbon consumption

School of Public Policy and Management, UCAS

Business School, BNU

Antai College, SJTU

September 2023

June 2023

May 2023

HONORS, AWARDS & GRANTS

Grants / Scholarships

- \$5,000, University of Chicago, *CAPP Startup Program*, 2024
- \$20,000, University of Minnesota (Twin Cities Campus), *Minnesota Nonresident Tuition Awards (offered)*, 2024
- \$6,000, Ministry of Education of the PRC & Beijing Normal University, *Undergraduate Research Grants*, 2022

Honors

- AHEC (Amur-Heilong Environmental Conservation) Ambassadors, WWF (China), 2024

Awards

- Best Team, "Young Ambassador Program" by the Trilateral Cooperation Secretariat, 2024
- Top Ten Volunteers of Beijing Normal University, 2023
- Grand Prize, The 9th China National College Student Competition on Energy Economics (*top 10 among 6148*), 2023

SELECTED PROJECTS

Mapademic | [GitHub repo](#)

January 2025 – April 2025

- An interactive platform that integrates bibliometric analysis with geospatial visualization to map global research trends and academic mobility

TEACHING EXPERIENCE

Teaching Assistant

Management Information Systems (MBA), Beijing Normal University

February 2024 - June 2024

- Led a full-day supply chain management simulation, facilitating understanding of operational strategies

RELATED PROFESSIONAL EXPERIENCE

World Institute of Politics, Economy and Technology (WPET)

Shanghai, China

Youth Associate Researcher (volunteer)

October 2023 - Present

- Conducted research, compiled, and authored articles and government reports on technical policies and regulations related to cybersecurity, artificial intelligence, and digital technology standards from a global perspective

A Better Community (ABC) Consulting

Beijing, China

Project Consultant in China County Fundraising Report & Animal Charity Marketing

Sept. 2023 – Sept. 2024

- Interviewed 4 county NGOs to analyze the fundraising effectiveness, and challenges of non-profit operations
- Developed a specific quantitative forecasting model for the fundraising potential of county-level NGOs
- Designed a one-year integrated marketing communication strategy for animal protection organizations and enterprises based on the desk research of 20+ similar organizations, 10+ expert interviews, and 2,000+ user surveys

LANGUAGES & SKILLS

- Languages: English (Advanced), Chinese (Native), Spanish (Intermediate)
- Programming & Data Analysis: Advanced in Python (machine learning, NLP, web scraping); proficient in R and Stata for econometrics and statistical modeling
- Data Engineering Pipeline: RESTful API development (FastAPI, Flask), ORM design, relational and vector databases (PostgreSQL, DuckDB, ChromaDB); data processing with Parquet, ElasticSearch, XML/JSON parsing
